

At CosCare Your Safety Matters to Us

At CosCare, we make sure every child feels safe, happy, and looked after. Your safety is our number one job, and we love helping you play, learn, and grow!

We work hard every day to make sure you feel happy, safe, and cared for.

Here's how we do that:

- We follow special rules that help keep all children safe
- We make CosCare a kind, caring, and safe place for everyone
- We stop anything that could hurt or upset children
- We listen to you and want you to feel confident to speak up
- If you're ever feeling worried, scared, or unsure you can always talk to someone here who will help you

We also make sure that:

- All the Educators at CosCare learn how to keep kids safe
- Our team knows how to help if someone has a problem or a worry
- We ask for ideas to make CosCare even better and safer
- Families and visitors know that we all share the job of keeping children safe and happy

We want you to always feel safe, strong, and heard because you matter!
